Memorandum

To: April Newman, CPRA Project Manager

From: Rhett A. Desselle II, CPRA Land Rights

RE: Landrights Completion Memo
Mid Breton Land Bridge Marsh Creation and Terracing Project BS-32

The CPRA Land Rights Division has completed all landrights necessary to proceed to construction contracting on the above referenced project. The following information is being transmitted via this memorandum, or has already been forwarded to you under a separate memorandum:

__X__ *Servitude Agreement(s)*
_____ *Servitude Amendment (Integrated Coastal Protection)*
__X__ *Pipeline Notices of Construction*
_____ *Oil/Gas Operator Agreement(s)*
_____ *Memorandum(s) of Agreement*
__X__ *CWPPRA Section 303(e) approval*
_____ *Right(s)of Entry for Construction*
_____ *Mineral Operations Agreement(s)*
__X__ *Grant of Particular Use*
_____ *State Land Office Letter of No Objection*
_____ *Assignment of Rights to Federal Sponsor*
__X__ *Landrights Certification Letter*
_____ *Other: Corp of Engineers Consent*
__X__ *Other: Landrights Map (Shown as Exhibit A)*

Please note the following information that will need to be included in the contract specifications and/or for future monitoring, operations and maintenance site visits:

I. Landowner Notification Requirements

A. The following notice language is in Article II of the Landowner's (as shown in Exhibit B) servitude agreements:

"STATE agrees to give reasonable notice to GRANTOR prior to initiation of access to the said Lands for the purpose of implementing, constructing, operating, modifying, monitoring and maintaining the Project."

The following notice language is in Article II of the Delacroix Corporation servitude agreement:

"STATE agrees to give forty-eight (48) hour notice to GRANTOR prior to initiation of access to the said Lands for the purpose of implementing, constructing, operating, modifying, monitoring and maintaining the Project. GRANTOR'S Representative is Michael Farizo who can be contacted at (504) 583-8192 or mfarizo@delacroixcorp.com. Should GRANTOR'S Representative or contact information change, GRANTOR shall provide STATE with any new or changed contact information by providing notice to Rhett Desselle at (225) 342-5068 or Rhett.Desselleii@la.gov..."

B. It is recommended that the same notice given to the aforementioned landowners be provided to the State Land Office.

Contractor agrees to give reasonable notice to all land owner(s) and pipeline owner(s) prior to initiation of access to the Project for the purpose of implementing, constructing, operating, modifying, monitoring and maintaining the Project. In this instance, reasonable notice will be no less than fourteen (14) days prior to initiation of work, or the coordination of ingress or egress for the purposes required in implementing, constructing, operating, modifying, monitoring, and maintaining the Project.

II. General Provisions

The Contractor shall add all landowner(s) as additional insureds on any policies carried by the contractor, including completed operations coverage. It is also agreed and understood that the Contractor will at all times indemnify and hold harmless all landowners from and against any and all claims, demands, causes of action, judgments, liabilities, and expense of every nature, including attorney's fees, by reason of personal injury, death (including but not limited to injuries to and death of employees of the landowners and the Contractor's employees), or damage to property, (including environmental) which arises out of, results from, or is in any manner related to, directly or indirectly, any operations or acts hereunder, or to the exercise of your rights hereunder, or to your presence upon or use of the landowners' premises above referred to, or to the use or existence of your facilities on such premises. The indemnity provisions of this paragraph shall not apply if any such injury, death, damage, liability claim, or cause of action is caused by the negligence of the landowners, their employees, agents, or representatives.

The Contractor shall adhere to all applicable provisions, terms and conditions, restrictions, and the like in Easements, Servitudes and Right-of-Way Agreements and/or Grants of Particular Use between CPRA and the below-listed landowners within Appendix C of the contract documents.

III. Special Conditions

Article III of the Agreement includes: "To the extent permitted by Louisiana law, STATE shall, indemnify, and hold GRANTOR harmless against and from all costs, expenses, claims, demands, penalties, suits, fines, and actions of any kind and nature arising from the Project and caused by the actions and fault of STATE or its agents, employees, contractors, subcontractors, successors, assigns and transferees, including any court costs and reasonable and actual litigation expenses and attorneys' fees. However, nothing herein shall be construed as indemnifying or holding GRANTOR or any third person not a party hereto harmless against its own fault or negligence or that of its agents, employees, contractors, successors, subcontractors, assigns and transferees. Should work on said Lands be performed via contract, STATE shall ensure that the contractor lists GRANTOR as additional insured on any policies carried by the contractor, including completed operations coverage. The STATE acknowledges, declares and stipulates that GRANTOR has provided this Agreement at no cost to the STATE under the provisions of La. R.S. 49:214.6.10(C), as amended by Act No. 734 of the 2010 Regular Session of the Louisiana Legislature. This clause shall survive the term of this agreement."

Article IV of the Agreement includes: "STATE shall be responsible for repair in like manner of any fences, bridges, roads, and other similar facilities and appurtenances located on said Lands which may be damaged or destroyed by STATE, or its designees while on said Lands, but such repair shall be to that condition which existed immediately prior to STATE's activities. STATE shall remove or dispose of all debris associated with construction, operation and maintenance of the Project."

Article VII of the Agreement includes: "…STATE agrees not to unreasonably interfere with (a) oil and gas operations, (b) agricultural operations, and (c) hunting, trapping and alligator egg operations, (d) fishing, crabbing, or shrimping, now occurring, or authorized to occur, on said Lands. STATE specifically acknowledges the continuing right of GRANTOR, its heirs, successors, assigns, transferees or lessees, to use, occupy and enjoy all of said Lands, for all purposes, in such manner at such times as they, or any of them, shall desire to use same, including, but without limitation, for the purpose of conducting oil, gas or other mineral operations on any of said Lands, for the exploration, discovery, production, storage, transportation and disposition of oil, gas, sulphur or other minerals, under oil, gas and mineral leases or otherwise, and for the purpose of farming, grazing, hunting and trapping fur-bearing animals, alligator egg operations, fishing, crabbing, or shrimping thereon, provided, however, that such use, occupation, and enjoyment shall not unreasonably interfere with the lawful activities of STATE pursuant to this Agreement…."

IV. State Land Office Special Conditions

Article 4 of the Grant of Particular Use includes: "All tools, equipment, and other property (excluding project features) taken upon or placed upon the State-owned seashore, State lands and State water bottoms by the Grantee or its contractor(s) shall remain the property of the Grantee or its contractor(s). All such tools, equipment, and other property shall be removed by the Grantee or its contractor(s) within sixty days of completion of the work."

Article 5 of the Grant of Particular Use includes: "The Grantee agrees to act in a reasonable manner in conducting its activities on the property covered by this Grant of Particular Use."

Article 6 of the Grant of Particular Use includes: "This Grant of Particular Use applies to officers and employees of the Grantee, and to its agents, representatives, and private contractors. This Grant of Particular Use obviates the necessity for the Grantee and/or its contractors, employees and assigns to acquire any other permits from the State Land Office in order to proceed with the work described herein. The Grantee agrees to include the following paragraph in its construction contracts to alert contractors that they must contact the State Land Office:

> Pursuant to the Permits and Responsibilities clause, you are required to contact the Administrator of the State Land Office or his representative at (225) 342-4578, to notify the State Land Office when construction will commence on the State-owned seashore, State lands and/or State water bottoms."

Article 9 of the Grant of Particular Use includes: "The following restrictions apply:

A. Grantee agrees to act in a reasonable manner in conducting their activities on the property covered by this Grant of Particular Use.

B. To the extent required by and pursuant to La. R.S. 49:214.6.10, the State of Louisiana shall be held free and harmless from claims, for loss or damages to rights, arising as a consequence of this authorization from any diversions of freshwater or sediment, depositing of dredged or other materials, integrated coastal protection, or any other actions, taken for the purpose of management, preservation, enhancement, creation, protection, or restoration of coastal wetlands, water bottoms, or related renewable resources. This provision does not impose an indemnification obligation upon Grantee or its contractors.

C. Grantee shall include the language of the above two paragraphs, which are labeled "A" and "B", in any transfer or assignment of the right to use granted herein, and shall require the transferee or assignee to include and require said language in any subsequent transfer or assignment. Failure to do so shall not negate the protection provided the State of Louisiana and Grantee and all these entities' agents and employees in La. R.S. 49:214.6.10.

D. The restrictions in paragraphs A, B, and C above are not intended to contravene Louisiana law."

Article 13 of the Grant of Particular Use includes: "Exercise of the rights of entry conveyed herein in any manner by Grantee and/or its agents, employees, and contractors constitutes acceptance of the rights granted by this Authorization and any and all terms, restrictions, and conditions set forth herein."

NOTE: Please read all of the conditions in the agreements and include all pertinent information from same in the scope of services and plans and specs for construction, operations, maintenance and monitoring of the project

V. Delacroix Corporation Special Conditions

Article III of the Agreement includes: "To the extent permitted by Louisiana law, STATE shall indemnify and hold harmless GRANTOR against and from all costs, expenses, claims, demands, penalties, suits, fines, and actions of any kind and nature arising from the Project and caused by the actions and fault of STATE or its agents, employees, contractors, subcontractors, successors, assigns and transferees, including any court costs and reasonable and actual litigation expenses and attorneys' fees. However, nothing herein shall be construed as indemnifying or holding GRANTOR or any third person not a party hereto harmless against its own fault or negligence or that of its agents, employees, contractors, successors, assigns and transferees. Should work on said Lands be performed via contract, STATE shall ensure that the contractor lists GRANTOR as additional insured on any policies carried by the contractor, including completed operations coverage. The STATE acknowledges, declares and stipulates that GRANTOR has provided this Agreement at no cost to the STATE under the provisions of La. R.S. 49:214.6.10(C), as amended by 2010 Acts No. 734. This clause shall survive the term of this agreement."

Article IV of the Agreement includes: "STATE shall be responsible for repair in like manner of any fences, bridges, roads, and other similar facilities and appurtenances located on said Lands which may be damaged or destroyed by STATE or its designees while on said Lands, but such repair shall be to that condition which existed immediately prior to STATE's activities. STATE shall remove or dispose of all debris associated with construction, operation and maintenance of the Project."

Article VII of the Agreement includes: "...STATE agrees not to unreasonably interfere with GRANTOR'S normal course of business, including but not limited to, (a) oil and gas operations, (b) agricultural operations, (c) hunting, trapping and alligator egg operations, (d) fishing, crabbing, or shrimping, (e) waterfowl hunting and leasing, (f) nutria and/or feral hog hunting and leasing, and (g) subsurface carbon capture and/or storage operations, now occurring or occurring in the future, or authorized to occur, on said Lands. STATE specifically acknowledges the continuing right of GRANTOR, its heirs, successors, assigns, transferees or lessees, to use, occupy and enjoy all of said Lands, for all purposes, in such manner at such times as they, or any of them, shall desire to use same, including, but without limitation, for the purpose of conducting oil, gas or other mineral operations on any of said Lands, for the exploration, discovery,

production, storage, transportation and disposition of oil, gas, sulphur or other minerals, under oil, gas and mineral leases or otherwise, and for the purpose of farming, grazing, hunting and trapping fur-bearing animals, hunting waterfowl, alligator egg and trapping operations, fishing, crabbing, or shrimping, nutria and/or feral hog hunting, and subsurface carbon capture and/or storage thereon, provided, however, that such use, occupation, and enjoyment shall not unreasonably interfere with the lawful activities of STATE pursuant to this Agreement."

Article "n." of Exhibit B of the Agreement includes: "...no access by air boat shall be permitted during the regular waterfowl hunting season (not inclusive of teal season) as set by the Louisiana Department of Wildlife and Fisheries or during alligator mating, nesting and egg collection season (May 15th through July 14th) without permission of GRANTOR, except during the construction period, which will not be unreasonably withheld and will seek to accommodate the construction period..."

VI. Pipeline Provisions

General Provisions:

A. The Contractor shall notify pipeline companies at least fourteen (14) days in advance of any construction Work. All pipelines located within 500 feet of the dike alignments, marsh fill areas, borrow area, excavation area, and sediment pipeline corridor shall be probed and their locations marked, prior to excavation and/or installation of the sediment pipeline, for the duration of construction activities. No excavation shall be permitted within 75 feet of any pipeline. It is the Contractor's responsibility to locate all pipelines for purposes of determining areas where excavation is not permitted.

B. Special care and extremely close coordination by the construction contractor with the pipeline companies will be crucial in order to avoid impacting the pipelines within or near the project areas to ensure that any lines in the area are identified and will not be impacted.

C. The construction contractor must contact Louisiana One Call at (800) 272-3020 at least five (5) business days prior to construction.

Landowners:

For Landowner names and contact information, **see Exhibit B.**
For adjacent Landowners and contact information, **see Exhibit C.**
