

Delta Management at Fort St. Philip (BS-11), Project Sub Area 2

Coastal Wetlands Planning, Protection and Restoration Act

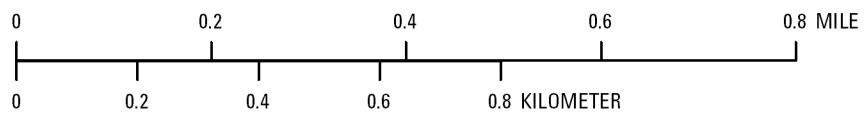

2006 Land-Water Classification by Crevasse

Data Information:
 The land-water data were derived from 1:12,000 scale, color-infrared aerial photography acquired on November 16, 2006, shown here. All areas characterized by emergent vegetation, wetland forest, scrub-shrub or upland were classified as land, while open water, aquatic beds and mudflats were classified as water. Because the work has not yet been approved for publication by the U.S. Geological Survey (USGS), it does not represent any official finding or policy.

Prepared by:
 U.S. Department of the Interior
 U.S. Geological Survey
 National Wetlands Research Center
 Lafayette, Louisiana
 and
 Louisiana Coastal Protection and Restoration Authority
 New Orleans Regional Office

Scale = 1:12,500

Federal Sponsor:
 U.S. Fish and Wildlife Service
