No. of votes: 6 6 6 6 6 6

The following voting process will be used to select 6-8 projects for recommendation to the Task Force:

1. The Technical Committee will decide on the number of projects that each agency will vote of (6 was proposed, however, the final decision lies with the Technical Committee).
2. Each agency will be provided one ballot for voting.
3. Each agency will vote for their top projects, hand-written on the above ballot form.
4. A weighted score will be assigned (8, 7...etc.) or (6, 5...etc.), to be used ONLY in the event of a tie. 8 is the top weighted score if voting for 8, 6 if voting for 6.
5. Initial rank will be determined based upon the number of votes received for a project (unweighted).
6. In the event of a tie at the cutoff of 6-8 projects, the weighted score will be used as a tie-breaker (if the Technical Committee decides to break the tie).
7. The tied projects will be ranked based upon a sum of the weighted score.
