**I. CPRA Response to Bidder Questions:**

- 1. Question:** Please confirm if Contractor can use Elmer Island Road to mobilize equipment and pipeline to the Marsh Creation Increments via traversing the beach.

**Response:** Contractor access to the project site will remain as documented in the plan set as “equipment access corridor.”

- 2. Question:** Clarification response No. 6 in Addendum No. 2 clarifies that the total earthen containment dike quantity is modified to 48,138-ft from the 50,790-lf currently shown in the Public Work Bid Form. Please provide bidders a revised Public Work Bid Form prior to bid submission.

**Response:** The revised Public Work Bid Form is attached to this addendum.

- 3. Question:** I’m working on the survey proposal for the CPRA Caminada Headland Back Barrier Marsh Creation Area BA-0171 project and I’m trying to come up with a number of feet to be surveyed for the marsh creation area transects on pages 16 and 17 of the plans. Would it be possible to get a dwg of the plans or the start and end coordinates of the transects so I can bring it in CAD and computed the footage.

**Response:** Construction survey layout drawings are provided on the ftp site for the project: <ftp://ftp.coastal.la.gov/BA-171/Appendices/>.
